PROFESSIONAL SUMMARY

Product Designer with 6+ years of experience building financial platforms, SaaS products, and scalable Design Systems. Currently leading design governance at a fintech, bridging product strategy and engineering delivery. Solid background in cross-functional collaboration with PMs and engineers, continuous discovery, and data-driven UX — with a consistent track record of improving interface quality and accelerating product development cycles.

PROFESSIONAL EXPERIENCE

Product Designer at **Opea Capital, Fintech** aug 2024 — present

- Leadership of the full lifecycle of a multi-product Design System — from conception and governance to documentation — reducing visual inconsistencies and accelerating engineering delivery.
- Development of complex financial platform flows, with direct contribution to product strategy and hypothesis validation with stakeholders and clients.
- Continuous discovery through usability testing, heuristic analysis, and hypothesis validation, influencing roadmap decisions and product prioritization.
- Close collaboration with Product Managers and Engineering on requirements definition and OKR alignment, balancing technical feasibility, business value, and user experience.

User Interface Designer at **Smarthis, RPA & AI Startup** oct 2022 — jul 2024

- Optimized interfaces focused on conversion and performance, leveraging quantitative data (Mouseflow, Microsoft Clarity, RD Station) to drive design decisions and improve information architecture.
- Leadership of the Smarthis Hub platform redesign, with UI modernization and restructuring of automation flows based on usability heuristics and user feedback.
- Created and maintained component libraries and style guides, increasing visual consistency and development speed.

UX/UI Designer at **SuperOpa, Startup B2C** jan 2022 — aug 2022

- Development and optimization of checkout flows and mobile experience, with direct impact on app conversion rates.
- Collaboration with Customer Experience teams in translating user feedback into concrete product improvements.
- Construction of the product style guide, laying the foundation for scalable interface consistency.

Digital Designer at **Brand Connect & Degrau, B2B Agencies**
mar 2020 — dec 2021

- Creation of high-performance interfaces and landing pages for enterprise clients including PayPal, Red Bull, and Verizon, focused on conversion optimization and visual storytelling.

COMPETÊNCIAS

DESIGN & RESEARCH
Product Discovery · Design Thinking · User Research · Usability Testing · Information Architecture · Journey Mapping · Accessibility (WCAG) · A/B Testing · Responsive Design

DESIGN SYSTEMS
Creation · Governance · Documentation · Component Libraries · Style Guides

TOOLS & ANALYTICS
Figma (Advanced) · Adobe Creative Suite · Miro · Maze · Notion · Google Analytics · Hotjar · Microsoft Clarity · Mouseflow · RD Station

LEADERSHIP & COLLABORATION
Design System Governance · Stakeholder Communication · Cross-functional Collaboration · Product Mindset · Agile Environments

EDUCATION

Digital Business Management & AI at **USP**
2026 — 2027 • Post Graduation (MBA)

Graphic Design at **UNICID**
2021 — 2024 • Graduation

Internet Computing na **ETEC**
2016 — 2017 • Technical

CERTIFICATIONS

Advanced UX/UI at **CoderHouse** — out 2024

UX Design Professional Certificate — **Google** at **Coursera** — sep 2023
